SUBJECT INDEX VOLUME 66

Abdominal aorta, blunt trauma
  aortoiliac reconstruction, case report, 1248
  endovascular management of stenosis, E81
Abdominal compartment syndrome. *see* Compartment syndrome
Abdominal trauma
  anterior stab wounds, management, 1294
  blunt
    aortoiliac reconstruction, case report, 1248
    contrast extravasation, 1102
    CT and MRI sensitivity, 1302
    endovascular management of stenosis, case report, E81
    rectal perforation, image of trauma, 286
    routine *versus* selective CT, 1108
    ureteropelvic junction disruption, image of trauma, 287
  gunshot wound, pain and bleeding after 3 years, case report, E13
  massive ventral hernia, honeycomb-abdomen, case report, 1234
  temporary closure techniques, intra-abdominal pressure development after, 1118
Abductorplasty, second toe extensor digitorum brevis, vascularized joint transfer, 1374
Achilles tendon injuries
  one-stage reconstruction, sliding gastrocnemius musculocutaneous flap, 1129
  with soft tissue loss, reconstruction, 774
Acid-base balance, physicochemical approach, critically ill trauma patients, 1045
Acinetobacter, SIgA degradation, pneumonia, 1556
Acromioclavicular joint, dislocation, K-wire transfixation, outcome, 1666
Adrenal insufficiency, septic shock, baseline cortisol levels, 1060
Adverse events, HBOC-201 vasoactivity, trials of orthopedic surgery subjects, 365
Aeromedical transport
  severe lung injury, combat casualties, S164
  simulated altitude, effects on ventilator performance, S172
Afghanistan
  infection control, combat casualties, S138
  remote, Army two-surgeon teams, S37
Age/aging
  sleep deprivation, mortality in critical injury and, 50
  traumatic brain injury, hospitalization, 179
Airway, early intubation, management of trauma patients, 32
Air rescue. *see* Aeromedical transport; Helicopter transport
Akaike Information Criterion, severe TBI, prognostic indicators, 304
Albumin, stored packed red blood cells, oxidation in, 76
Alcohol use
  brief intervention, screening criteria for, 1704
  implications, Uniform Policy Provision Law, Trauma centers, 495
  LA County trauma patients, single item screener, 1461
  orofacial injury and, vulnerable patients, 477
  TBI patients, risk of mortality and, 1584
Allelic association, organ failure and shock, after injury, 115
Altitude, simulated, effects on ventilator performance, combat casualties, S172
Alveolar-interstitial disease, posttraumatic, sonographic depiction, 962
American Association for the Surgery of Trauma (AAST)
  blunt traumatic thoracic aortic injuries, 967
  Through the looking glass: Déjà vu all over again, 1
Amputation
  forearm, after avulsion injury, microsurgical replantation, 1167
  prediction of need, ballistic mangled extremity injuries, S93
  traumatic, combat casualty care, S86
Analgesia, comparison of techniques, multiple fractured ribs, 1096
Anastomosis, delayed, war-related colon injuries, 1286
Androgen, IGF-1/insulin signaling pathways, skeletal muscles, 1083
Angioembolization
  hepatic necrosis after, high-grade liver injuries, 621
  submammary intercostal arterial injury, case report, 264
Angiography, pelvic fracture, transcatheter arterial embolization, 429
Angular shortening, delayed gradual distraction and, tibial fractures, E61
Ankle, defects, extensor digitorum brevis muscle flap, 835
Anterior cruciate ligament (ACL), posterior cruciate ligament and, simultaneous reconstruction, 780
Antibiotic elution, liquid gentamicin in bone cement, periprosthetic infection, 804
Antibiotics, de-escalation of therapy, VAP, effects on recurrence and mortality, 1343
Anticoagulation
  prehospital care, traumatic head injury, 942
  use in TBI, risk of DVT, 1436
Antifactor XA, ICU patients, prophylactic-dose enoxaparin, 1509
Antiseptics, delayed wound healing, mechanisms, 82
Aortic injury
  blunt, fenestrated stent-graft for, 974
  pseudoaneurysm, posttraumatic, case report, 1735
Apheresis platelets, impact, massively transfused combat trauma patients, S77
Apoptosis, hemorrhagic shock, cyclosporine A prevention, 1033
Arteriovenous fistula
  posttraumatic pulmonary, case report, 554
  superior mesenteric artery to vein, 3 years after abdominal gunshot wound, case report, E13
Aspirin, preinjury anticoagulant use, traumatic head injury, 942
Assessment of blood consumption (ABC), early predictors, massive transfusion, 346
ATLS Guidelines, Lodox-Statscan screening, *vs.* conventional radiography, 418
Autopsy findings, blunt abdominal trauma, CT and MRI compared with, 1302

Bacteria
  host inflammatory cells and, in SIgA degradation, 1556
  systemic lymph, neutrophil priming after hemorrhagic shock, 1625
Base deficit
  physicochemical approach, critically ill trauma patients, 1045
  predictor of mortality, normotensive elderly patients, 1040
Beta blocker, cerebral perfusion and hypoxia, after TBI, 154
Biomechanics
  diffuse axonal injuries, motor vehicle crashes, 309
  distal femoral fractures
    fixation comparison, 443
    nail-cortical contact, 436
  head injury, feet-first free falls, 12-month-old children, 1019
  posterior malleolar fractures, review, 279
  pulmonary contusion, crash-induced thoracic loading, 840
Bioprosthetic, repair of duodenal injury, porcine model, 103
Bladder trauma, extraperitoneal, complications, case report, 274
Blast exposure/injury
  concussive injuries, PTSD and, S178
  methemoglobinemia, after nitroglycerin absorption, case report, 936
  military weaponry, TBI and spinal cord injury, S104
  physics, biophysics, pathology, and research focus, 1468
Blood alcohol concentration (BAC), alcohol use, screening in trauma patients, 1704
Blood flow, fracture site, VEGF role in, 1180
Blood glucose
  fluid resuscitation speeds, resuscitation in hemorrhagic shock, 683
  intense control, morbid obesity in trauma patients, 226
Blood pressure, HBOC-201 vasoactivity, phase III clinical trial, 365
Blood substitute, HBOC-201 vasoactivity, phase III clinical trial, 365
Blood transfusion. *see* Massive transfusion; Transfusion

superficial palmar branch of the radial artery, finger reconstruction, 1173
Fluid therapy
hyperviscous fluid, hemorrhagic shock, canine model, 1365
methamphetamine burns, health hazards, 1712
Follow-up, trauma patients, postdischarge health-related issues, 1696
Foot, defects, extensor digitorum brevis muscle flap, 835
Forearm, radial head fractures, interosseous membrane lesions and, 457
Foreign body, extraction, craniocerebral trauma, CT venography, case report, 567
Forward Surgical Teams (FST)
support and stabilization operations, comparable outcome to CSH, S48
US Army, remote Afghanistan, S37
Fracture
pelvic
unstable, sepsis in, 1548
Fractures
ankle, biochemical and clinical evaluation, 279
avulsion, posteromedial tibial plateau, E1
blowout, medial orbital wall, endoscopic reduction, 1421
both-column acetabulum, case report, 918
calcaneal, intraoperative 3D imaging, 768
cervical spine, car crash, image of trauma, 587
craniofacial skull base, pneumocephalus, E24
distal femoral
nail-cortical contact, 436
percutaneous temporal wiring, 938
distal fibular plate osteosynthesis, minimally invasive, 570
distal humerus, fixation, 795
distal radius, fixation with volar plate, 1416
facial, life-threatening hemorrhages and, 1425
femoral
with both-column acetabulum, case report, 918
intertrochanteric, transtrochanteric approach, letter, 1262
intramedullary nailing, fat embolism syndrome after, E42
metastatic, surgical treatment, 1158
periprosthetic, fixation for, 1152
undetected injuries to knee with, 1398
finger, traction splints for management, 1641
foot, tarsal coalition complicated by, case report, 276
healing, VEGF role in, 1180
hip (*see* Hip fractures)
humeral head, hemiarthroplasty of the shoulder, 211
humeral shaft, iatrogenic radial nerve palsy, 800
iliac wing, morbidity associated with, 200
intraarticular, intraoperative 3D imaging, 232
Lisfranc dislocations, tarsometatarsal joint injury, 1125
lumbar spine, bilateral facet dislocation with, case report, 922
mandibular
developmentally disabled persons, E46
novel therapeutic modality, letter, 963
staging diagnosis, 215
pathological, shaft of humerus, 789
pelvic
delayed hemorrhage, case report, 267
iliosacral screw placement, 1411
transcatheter arterial embolization, 429
unstable, physical exam in, 815
proximal humerus
angular stable fixation, 204
rotator cuff tendons after, imaging, 951
two-part bituberosity, case report, E75
radial head, interosseous membrane lesions and, 457
rib, continuous TEA or continuous TPVB, 1096
rib and sternal, surgeons' opinion, 875
sacral, iliosacral screw placement, 1411
skull, cerebral venous sinus occlusion, CT venography, 1002
sternal, isolated, early surgery, 462
thoracic vertebral body, with diffuse idiopathic skeletal hyperostosis, E57
thoracolumbar burst, ligamentous injury, assessment with MRI, 1610
tibia
angular shortening, E61
micromotion after tibial nailing, 1391

in situ bone graft for nonunion, case report, 550
tibial shaft
intramedullary nailing, 1135
malleolar fracture associated with, 1385
unilateral lateral mass-facet, with rotational instability, cervical, 758
Fresh frozen plasma (FFP)
impact on outcome, in massively transfused patients, 693
ratio to packed red blood cells, survival bias, 358

Gelatin
fluid resuscitation with, acute hemorrhagic shock, 337
in hemostatic products, evaluation in renal trauma, 602
Gender differences
firearm injury lethality, women, 1207
traumatic brain injury, hospitalization, 179
traumatic spinal cord injury, mortality and risk factors, 184
Genetics, posttraumatic sepsis, mitochondrial polymorphism, 850
Genetic variation
complement component 2, increased mortality and infection, 1265
risk of organ failure and shock, after injury, 115
Glutamine, enteral supplementation, prevention of gut translocation, 110
Gluteal artery, pseudoaneurysm, sciatic nerve compression from, case report, 1731
Glycogen synthase kinase-3β, signaling pathways, skeletal muscles, 1083
Grafting
excision and, burn patients, letter, 1746
prosthetic, military vascular trauma, 980
Gunshot wounds
abdominal, pain and bleeding after 3 years, case report, E13
arterial injury, forearm compartment syndrome after, 989
colon and small intestine, laparoscopic repair, case report, 931
extremity vascular injuries, combat, S145
facial, free fibula flap and overdenture, case report, 1718
femoral defect, BMP-4 and TGF-β combined, rabbit, 450
pelvic hemorrhage, intracorporeal use of QuikClot, case report, 1482
renal, clinical management and outcome, 593
subcutaneous splenosis, case report, E55
Gut translocation, prevention with enteral nutrition, glutamine, fiber, and oligosaccharide, 110

Haloperidol, neuroleptic malignant syndrome, traumatic brain injury, 954
Hamstring autograft, ACL and PCL, simultaneous reconstruction, 780
Hand injuries, finger fractures, traction splints for management, 1641
Head injury
bicycle safety, protection of temporal area, letter, 1506
cerebral venous sinus occlusion, CT venography, 1002
closed, cerebral sinovenous thrombosis after, 1599
coagulopathy
mortality rates, 55
prehospital care, 942
reversal, recombinant factor VIIa, 63
contact loading, diffuse axonal injuries, 309
feet-first free falls, 12-month-old children, 1019
repeat head CT, ICU monitoring and, 1015
Health insurance
alcohol intoxication, Uniform Policy Provision Law, Trauma centers, 495
inequity of rehabilitation, after traumatic injury, 255
Heimlich maneuver, complications, E34
Heinig view, sternoclavicular joint, new classification system, 576
Helicopter transport
bone injection gun, intraosseous access by EMT, 1739
interhospital transfer, combat environment, S31
Helmets, injury prevention, depiction in motion pictures, 912
HemCon bandage, new hemostatic granules/powders, model of arterial hemorrhage, 316
Hemiarthroplasty, primary, after 4-part fracture of humeral head, 211
Hemodilution, normovolemic, in traumatic brain injury, 720
Hemodynamic changes, during resuscitation, after burn injury, 329
Hemoglobin-based oxygen carrier (HBOC), vasoactivity, phase III clinical trial, 365
Hemomediastinum, tension, secondary to blunt chest trauma, case report, 1489
Hemorrhage
acute, parathyroid response, 92
arterial, new hemostatic products, 316
life-threatening, facial fracture and, 1425
massive transfusion, early prediction, 346
massive transfusion protocols, reduction in postinjury complications, 41
mediastinal, blunt chest trauma, case report, 1489
pelvic, intracorporeal use of QuikClot, case report, 1482
transcatheter arterial embolization
repeat, 429
unstable pelvic fracture, case report, 267
traumatic amputation, combat wounded patient, S86
uncontrolled, groin injury, alginate addition, 612
Hemorrhagic shock
acute, colloidal fluid resuscitation, 337
HBOC-201 vasoactivity, trials of orthopedic surgery subjects, 365
hyperviscous fluid resuscitation, canine model, 1365
neutrophil priming after, systemic lymph, 1625
resuscitation
different fluid speeds, 683
voluven effects, 676
with trauma, anti-inflammatory resuscitation, 1632
unresuscitated, lung injury induced by, TLR4 role, 124
vascular hyperpermeability after, cyclosporine A, 1033
Hemostasis, solid organ injury, teaching psychomotor skills, 636
Hemostatic products
alginate addition, swine model of lethal groin injury, 612
new granules/powders, model of arterial hemorrhage, 316
QuikClot, for pelvic hemorrhage, case report, 1482
self-expanding polymer, extremity bleeding, 984
topical agents, renal trauma, 602
Hemothorax
hilar control, penetrating chest trauma, 1564
sonographic imaging, 961
Hepatic necrosis, complication after angioembolization, high-grade liver injuries, 621
Hepatitis B, occupational exposure, blood and other fluids, military hospital in Iraq, S62
Hepatitis C, occupational exposure, blood and other fluids, military hospital in Iraq, S62
Hernia, massive ventral, honeycomb-abdomen, case report, 1234
Hilar clamping, penetrating chest trauma, simplified method, 1564
Hip arthroplasty, infected, liquid gentamicin in bone cement, 804
Hip fractures
hospitalized, patterns of admission, 1402
surgery, hospital and surgeon volume effects, 809
HIV, occupational exposure, blood and other fluids, military hospital in Iraq, S62
Hobbs view, sternoclavicular joint, new classification system, 576
Hoffa fat pad, during tibial nail insertion, anatomical assessment, 1140
Homicide, intimate partner, lethality of firearm injury in women, 1207
Hospital costs, methamphetamine use, minimally injured patients, 485
Hospitalization
length of stay, staff commitment to trauma care, 1315
multidisciplinary discharge rounds, trauma center, 880
patterns of admission, hip fractures, 1402
trauma patients, severity, causes and outcomes, 516
traumatic brain injury, publicly insured population, 179
Hospital protocol
early identification of sepsis, validation of screening tool, 1539
injury prevention program, adolescent, 1451
massive transfusion, after blunt trauma, 1616
methylprednisolone, traumatic spinal cord injury, 1446
Human atrial natriuretic peptide (hANP), effect

on pulmonary dysfunction, after burn shock, 1281
Humerus, pathological fracture, surgical treatment, 789
Hydrogel-coated coils, detachable, for posttraumatic aortic pseudoaneurysms, case report, 1735
Hydroxyethyl starch
for cerebral oxygenation, in hemorrhagic shock, 676
fluid resuscitation with, acute hemorrhagic shock, 337
Hyperglycemia
different fluid resuscitation speeds, in hemorrhagic shock, 683
persistent, postinjury characterization, 1076
postburn insulin dysfunction, resistin and, 250
stress, marker for mortality in TBI, 145
Hyperlactatemia, prognostic value, ICU admission, 377
Hypertension
intra-abdominal, temporary closure techniques, 1118
portal, secondary to EHPVT, case report, 260
Hypertonic saline, fluid resuscitation with, acute hemorrhagic shock, 337
Hyperviscosity, fluid resuscitation, hemorrhagic shock, canine model, 1365
Hypocapnia, prehospital, after TBI, poor outcome and, 1577
Hypothermia
35°C, ICP in traumatic brain injury, 166
perioperative, acute lung injury and, burned patients, 1525
Hypoxia, cerebral perfusion and, after TBI, propranolol effects, 154

Idiopathic skeletal hyperostosis, thoracic vertebral body fracture with, E57
Iliosacral screw, placement, with neurodiagnostics, 1411
Imaging
blunt pelvic trauma, pseudostenosis of external iliac artery, 586
brain, acute sodium monofluoroacetate intoxication, E72
catastrophic antiphospholipid syndrome, after maxillofacial trauma, case report, 1724
cervical spine fracture, car crash, 587
cholesterol granuloma, 1505
intraoperative 3D
calcaneal fracture care, 768
orthopedic trauma care, comparative study, 821
visualization, value of, 232
magnetic resonance, testicular rupture, 239
multiple self-inflicted injuries, incarcerated man, 1744
pneumopericardium
major trauma, 1260
